How to Download Stock Market Index Data from S&P Capital IQ: Example

1. Click on Companies under the Companies tab.

2. Search by index name, click on Search, and click on the desired index name.

3. Adjust the date range for your data as desired. Click on Generate Chart if you have changed the date range. Click on the Export to Excel icon near the top of the screen to download the chart and the supporting data in .xls format.
