How to Download Economic Data from S&P Capital IQ: Example

1. Click on **Macroeconomics** under the **Markets** tab.

2. Click on **Browse Tree**.

3. Click on the **Basic Geography** tab, drill down to the desired geography, and click on **Go**.
4. Scroll down the page to the list of **Macroeconomic Indicators**, and click on an indicator name to access data about that indicator.
5. Change to the desired date range. Click on the **Export to Excel** icon to save the data in .xls format.
